Praktikum ke-7

Pada praktikum ini, kami memastikan bahwa website dapat melakukan **CRUD** tanpa kendala.

1. Create

- Masukkan **nama produk** ke dalam form.
- Klik tombol **Simpan** untuk menyimpan produk.

The screenshot shows a dark-themed web application interface. At the top, there are three tabs: "Vite + React", "WhatsApp", and "Putu Ngurah Semara_1023107". The main content area has a heading "Aplikasi E-Commerce Sederhana". Below it, there are two sections: "Tambah Produk" and "Daftar Produk".

Tambah Produk

Form fields for "Nama Produk" (BatakGore) and "Harga" (696969). A "Simpan" button is present.

Daftar Produk

A list of products with edit and delete buttons:

- Ambalabu - Rp10000
- Ambasing - Rp123
- Ambadut - Rp123
- ayam bakar - Rp123123
- Ikan goreng - Rp1230123
- BatamCheese - Rp696969

This screenshot is identical to the one above, showing the same dark-themed web application interface with the "Aplikasi E-Commerce Sederhana" title, "Tambah Produk" section, and "Daftar Produk" list.

✍ 2. Edit

- ✍ Klik tombol **Edit** pada produk yang ingin diubah.
- ✍ Ubah **nama** dan **harga produk** sesuai kebutuhan.
- ✍ Perubahan akan tersimpan secara otomatis setelah dikonfirmasi.

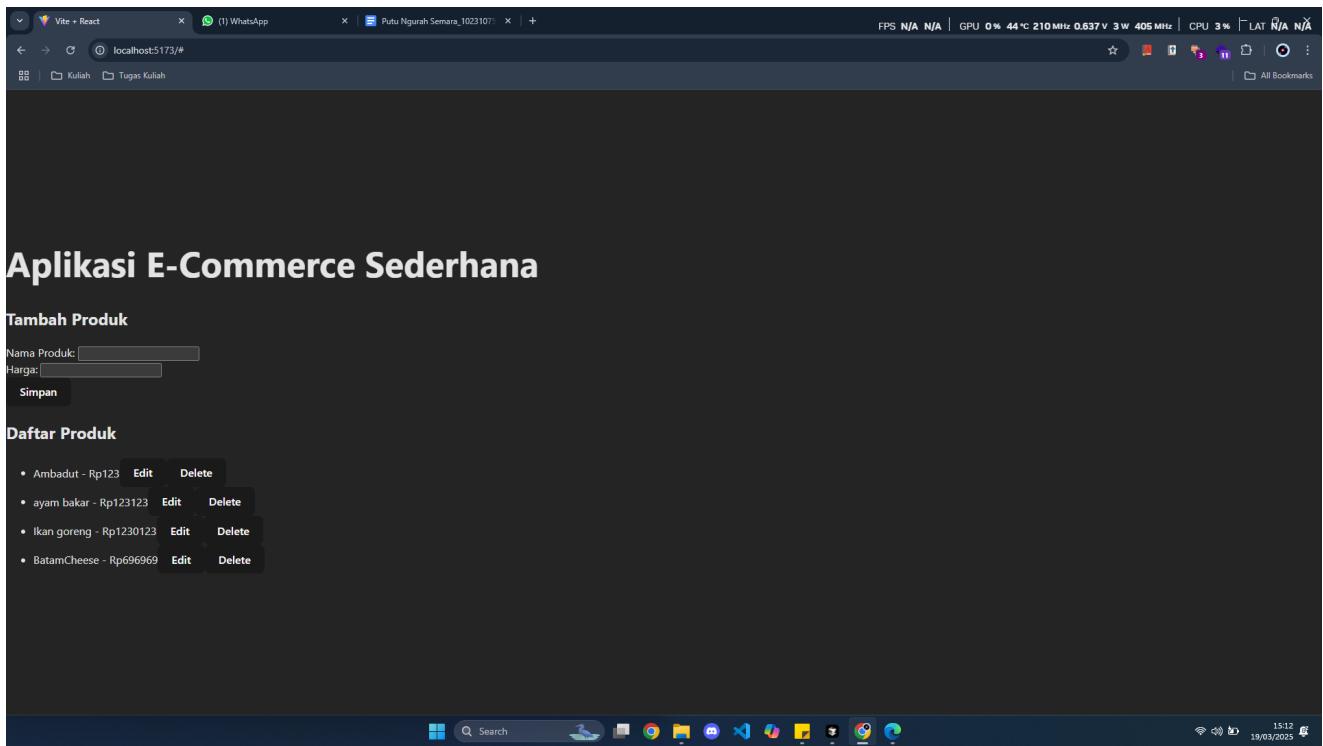

The screenshot shows a dark-themed web application interface. At the top, there are three tabs: "Vite + React", "(1) WhatsApp", and "Putu Ngurah Semara_1023107...". The main content area has a title "Aplikasi E-Commerce Sederhana". Below it, a section titled "Tambah Produk" contains input fields for "Nama Produk" and "Harga", and a "Simpan" button. Another section titled "Daftar Produk" lists items with edit and delete buttons. A new item "BatakGore" with price "Rp696969" is being added, with "Save" and "Cancel" buttons at the bottom.

This screenshot shows the same application after the new product has been saved. The "Daftar Produk" list now includes the new item "BatakGore - Rp696969" along with the other items. The "Save" and "Cancel" buttons are no longer visible.

3. Delete

Klik tombol **Delete** pada produk yang ingin dihapus.

Pastikan data yang dihapus sudah tidak diperlukan lagi!

◆ Dengan langkah-langkah di atas, website dapat melakukan **CRUD** dengan lancar! 🎉
